

People in Place

WORKPLACE

The idea of work has forever changed. Where do we go from here? That's the question that's driving us to innovate our design concepts. Today, it's more important than ever that our flooring solutions promote a flexible, inclusive and inspiring workplace—one in which people feel successful, comfortable and energized.

This Lookbook is a view into some of the world's most progressive, inclusive and inspiring spaces. These global design leaders are also design optimists. They're shaping the future of people together in the workplace, looking beyond how we work—and focusing on why. It's about more than beautiful spaces. It's about creating a deeper, more meaningful connection between people and place.

Flexibility

A PLACE OF PROGRESS

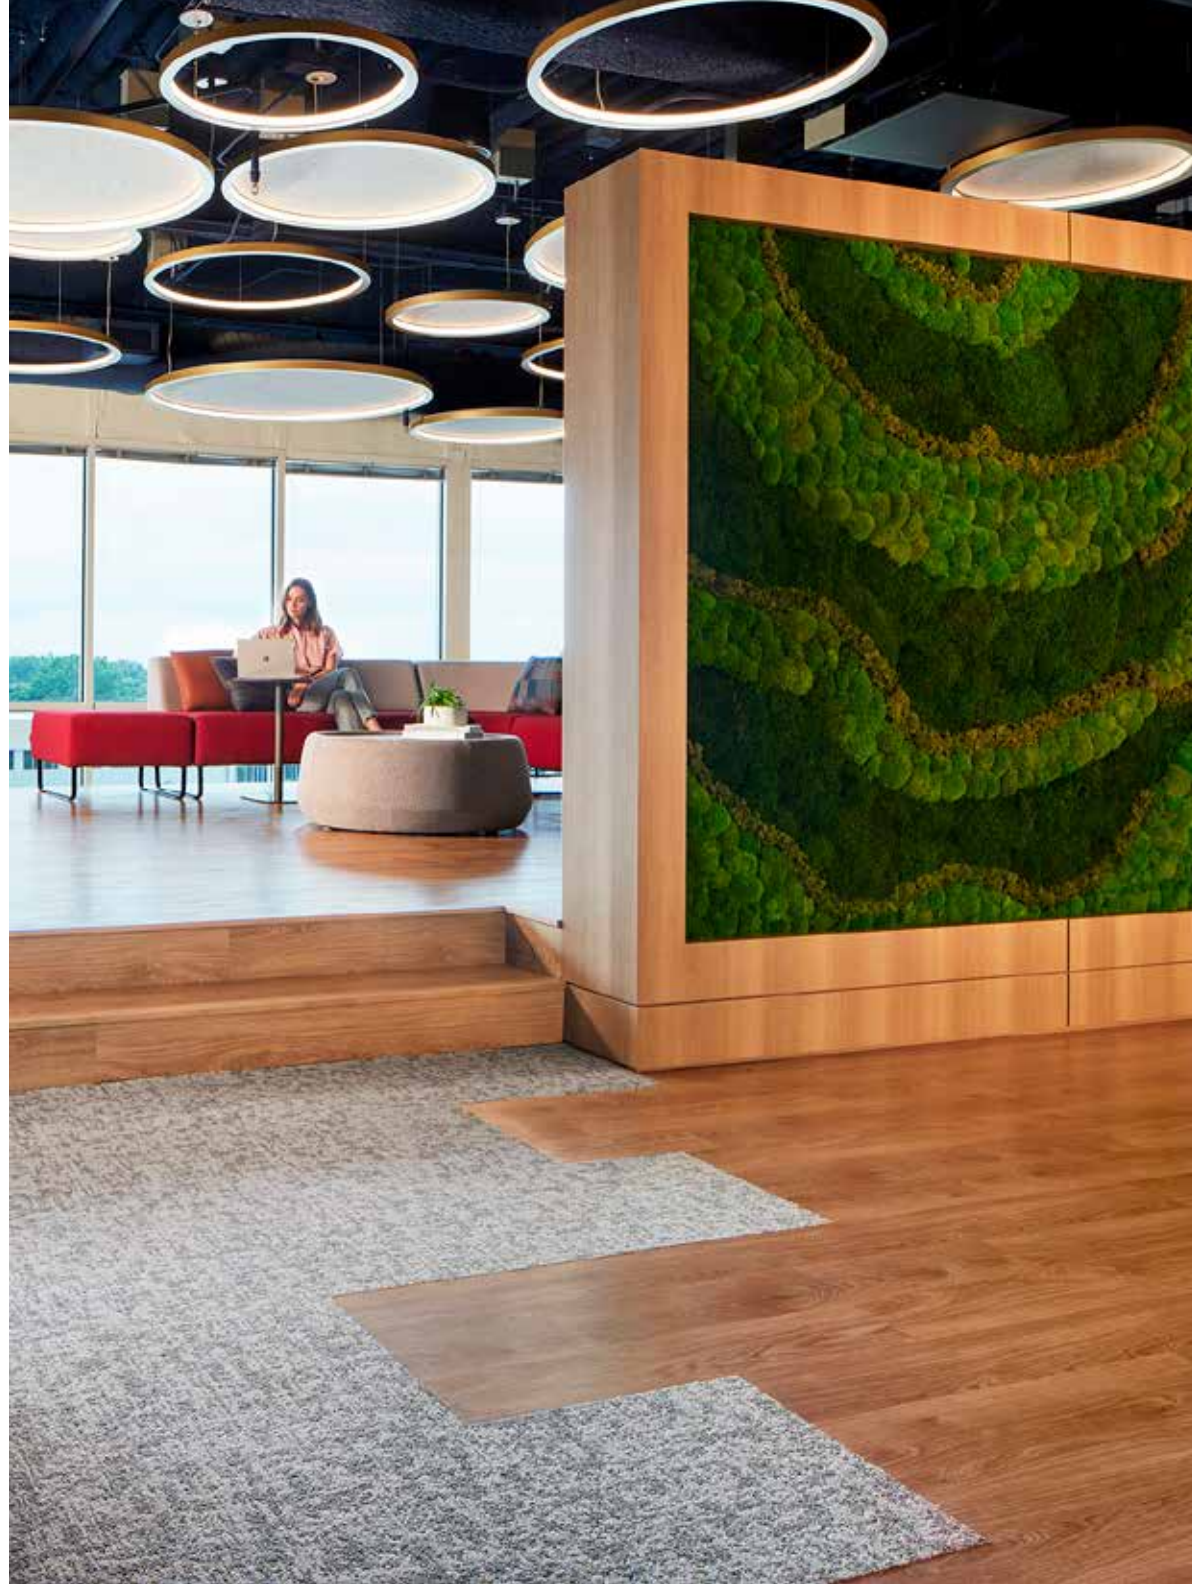

Today's workspaces are more agile than ever—both physically and culturally. This new mindset helps companies attract and develop the talent they need to keep moving forward. And these are the spaces that inspire us: the main office hub, the satellite office, coworking or home offices. Our ability to adapt reflects our ability to thrive.

Inspiring

A PLACE TO BELONG

A workplace that encourages individuals to do good things often ends up doing great things as a whole. It happens when you cultivate a corporate culture of belonging. Because when people belong, they're motivated to go the extra mile. It helps them feel that they're part of a team that genuinely cares about them. And part of a place that feels more like community.
